***NUMBERS, AS REPRESENTATIVES OF ENERGY, SHOW THEMSELVES AS LESSONS***

So ... a number tells us four things:

1. Positive expression
2. Negative expression

Intuition and experience will tell you which it is, or what mixture.

The negative expressions are often more revealing and instructive than the positive ones.

3. What's Going on?
4. What's REALLY Going on?

## THE FIRST LETTER OF THE FIRST NAME

This is an important energy as it is your 'first foot forward' into the world, the initial vibration which everyone else encounters when they meet you.

### Calculation

Find the first letter of your first name in the grid below, noting the two special cases.

<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>	<b>7</b>	<b>8</b>	<b>9</b>
A	B	C	D	E	F	G	H	I
J	K (11)	L	M	N	O	P	Q	R
S	T	U	V (22)	W	X	Y	Z	

### Examples

Richard = R = 9	Louise = L = 3	Pedro = P = 7	Vanessa = V = 22
-----------------	----------------	---------------	------------------

100% calculation - the rules matter.

Then - and only then - the extra factor - intuition/psychic skills.

We have looked at two aspects so far - Destiny and 1st Letter/1st Name. Harmony or conflict?

Every number has a spectrum of expression, from positive to negative.

### **Names versus Dates**

Appearance versus reality

Others versus self

Experience versus reality

### TOP TIPS

Double check all calculations

Double source celebrity dates of birth and name

Avoid going down the rabbit hole

Be wary of computerised numerology

Be gentle in what you say to people

Do not argue with skeptics - honestly it's a waste of time 😊
