

Week 3

The Personal Year

The “weather” that you travel through from one birthday to the next.

Calculation

DD+MM+Y*Y*Y*Y* (*the year you are currently in, NOT the year of birth)

Examples

28th October 2019	7th January 2021	4th August 2008
28+10+2019 = 2057	7+1+2021 = 2029	4+8+2008 = 2020
2 + 0 + 5 + 7 = 14	2 + 0 + 2 + 9 = 13	2 + 0 + 2 + 0 = 4
1 + 4 = 5	1 + 3 = 4	

The only possible answers are 1, 2, 3, 4, 5, 6, 7, 8, 9, 11, 22

All other two-digit numbers must have their digits added together until they reach one of these answers.

The Personal Year Cycle

It goes like this:

1

11 (not always 2 because we are in the 2000's i.e. 2021 etc - so more spiritual meaning)

3

4 (may be 22, depends on the person)

5

6

7

8

9

And round again to 1

Interpretation of each Personal Year

- 1** Opportunity - New start - Innovation - Originality - Action - A good time to solve problems and to make decisions, keep it clear and simple. All of that very much on the practical side of life, business and enterprise; looking at how we behave.

- 2** Time to rethink - Cooperation - Planning and Weighing up - Harmony - Passivity - Contrast - Fluctuation - Meditation. Not a period to start or to act; a time to delay important decisions. A chance to develop personal relationships.

- 3** Action again this time it is not as single-minded as in 1 - A variety of tasks can be handled - Scattering - Ease in completing or in solving problems - Freedom - Self Expression - The ability to mix business and pleasure - Entertainment. Watch the spending of money.

- 4** Back to work - Building foundations - Discipline - Materialisation - Practicality - Solidity - Consolidation. Not a good time to gamble with new ideas or with money. No new ventures - avoid distraction - keep your mind on the job.

- 5** Change - Expect the unexpected - New intellectual interests - Movement - Adventure - Travel (in the mind more than physical) - An urge to try something new - Caution in business as wild schemes may bring disaster, but if the situation is well analysed it is a good time to take risks.

- 6** Back to the familiar - Contentment - Understanding with Family, Partners - Health - Communication and caring - Listening to other peoples' problems - avoid conflict as in an emotional time they are harder to resolve. Not a good time for an outside experience such as a new project or challenge. Keep in the group - keep listening and communicating.

- 7** Self-analysis - Reflection - New studies - Travel - Holiday - Having a rest - health problems - A time for research - Insight - Fruition. A good time to make plans / projects with others, proceed with caution so they are not taken in by falsehood or illusion, as the world might seem a strange place during this period.

(personal year cont'd)

8 Back in the 'Real World' - Business; think big - do not get frustrated by small details, but re-evaluate for perfection. Effort and Action bring results. Responsibility. Power and money can all be yours if you have made the effort in the past. A good time to settle difficulties and money matters. Frustration may occur if small-minded.

9 Accomplishment - Contact - Creativity - Giving to others - Letting go of the old to let the new come through - Endings and new beginnings - Important announcements. A good time to change your mind and go for life as it is a good time to Win.

11 Opportunity to be recognised! Limelight, but keep a realistic approach to offers, follow your inspiration - accept the gift - meditate and touch on the Spiritual in you. Visions - a good time to be lifted out of the logical and into the intuitive.

22 Large endeavours - follow your dreams - plan it realistically and build it. This is a time for the materialisation of a good idea to change the world around you for the better. Cooperation - you do not achieve it alone. If the dream is not a feasible idea then learn to adapt ready for the next opportunity.
